### SPROUTS FARMERS MARKET, INC. REPORTS THIRD QUARTER 2018 RESULTS

PHOENIX, Ariz. – (Globe Newswire) – November 1, 2018 – Sprouts Farmers Market, Inc. (Nasdaq: SFM) today reported results for the 13-week third quarter ended September 30, 2018.

#### Third Quarter Highlights:

- Net sales of \$1.3 billion; a 10% increase from the same period in 2017
- Comparable store sales growth of 1.5% and two-year comparable store sales growth of 6.1%
- Net income of \$38 million; a 19% increase from the same period in 2017
- Diluted earnings per share of \$0.29; a 26% increase from the same period in 2017
- Excluding the one-time income tax benefit of \$3 million, diluted earnings per share of \$0.27; a 17% increase from the same period in 2017
- Raised the low-end of 2018 net sales and EPS guidance and tightened the comparable store sales growth range

“Robust new store productivity, continued product innovation and strong operations drove a double digit increase in net sales in the third quarter,” said Amin Maredia, chief executive officer of Sprouts Farmers Market. “During this time, we introduced Sprouts’ unique model of health, value and service to two new states where very strong sales demonstrated that our brand continues to resonate well in communities from coast to coast and is firmly positioned for long-term growth.”

#### Third Quarter 2018 Financial Results

Net sales for the third quarter of 2018 were \$1.3 billion, a 10% increase compared to the same period in 2017. Net sales growth was driven by strong performance in new stores opened and a 1.5% increase in comparable store sales.

Gross profit for the quarter increased 10% to \$382 million, resulting in a gross profit margin of 28.8%, an increase of five basis points compared to the same period in 2017. This leverage was primarily driven by higher merchandise margins partially offset by increased occupancy costs.

Direct store expense ("DSE") for the quarter increased 12% to \$281 million, or 21.2% of sales, compared to 20.7% in the same period in 2017. This deleverage was primarily driven by planned wage investments funded by savings from the Tax Cuts and Jobs Act, as well as increased healthcare costs and higher depreciation expense.

Selling, general and administrative expenses ("SG&A") for the quarter increased 10% to \$44 million, or 3.3% of sales, flat as compared to the same period in 2017. This primarily reflects increased strategic investments and advertising expenses offset by lower bonus and stock-based compensation expense.

Net income for the quarter was \$38 million and diluted earnings per share was \$0.29. During the third quarter of 2018, the company recorded a \$3 million discrete income tax benefit from the adoption of a tax calculation method change in conjunction with the Tax Cuts and Jobs Act. Excluding this benefit, adjusted net income was \$35 million, an 11% increase compared to net income for the same period in 2017 and diluted earnings per share was \$0.27, an increase of \$0.04 or 17%, as compared to diluted earnings per share for the same period in 2017. This increase was driven by a

lower effective tax rate due to the Tax Cuts and Jobs Act, higher sales, and fewer shares outstanding due to our repurchase program, partially offset by higher planned wage investments.

### Fiscal Year-to-Date Financial Results

For the 39-week period ended September 30, 2018, net sales were \$3.9 billion, a 12% increase compared to the same period in 2017. Growth was driven by solid performance in new stores opened and a 2.0% increase in comparable store sales. Net income was \$146 million and diluted earnings per share was \$1.12. Excluding the \$3 million discrete income tax benefit discussed above, adjusted net income was \$143 million, a 21% increase compared to net income for the same period in 2017 and diluted earnings per share was \$1.10, an increase of \$0.24 or 28%, compared to diluted earnings per share of \$0.86 for the same period in 2017.

### Growth and Development

During the third quarter of 2018, we opened 12 new stores: three in California, two in Nevada and one each in Arizona, Oklahoma, Maryland, North Carolina, Texas and our first stores in the states of Pennsylvania and Washington. Two additional stores have been opened in the fourth quarter, resulting in a total of 315 stores in 19 states as of November 1, 2018.

### Leverage and Liquidity

We generated cash from operations of \$235 million year-to-date through September 30, 2018 and invested \$129 million in capital expenditures net of landlord reimbursement, primarily for new stores. We ended the quarter with a \$435 million balance on our revolving credit facility, \$27 million of letters of credit outstanding under the facility, \$17 million in cash and cash equivalents, and \$283 million available under our current share repurchase authorization. Year-to-date through October 29, 2018, we have repurchased 8.4 million shares of common stock for a total investment of \$193 million.

### 2018 Outlook

As previously communicated, we are investing \$10 million, or approximately one third of our savings from the Tax Cuts and Jobs Act <sup>(1)</sup> in team member wages and benefits in 2018. The following provides information on our guidance for 2018:

	Full-Year 2018 Current Guidance	Full-Year 2018 Prior Guidance
Net sales growth	11% to 11.5%	10.5% to 11.5%
Unit growth	30 stores	Approximately 30 stores
Comparable store sales growth	1.7% to 2.0%	1.5% to 2.5%
Diluted earnings per share	\$1.28 to \$1.30 (1)	\$1.24 to \$1.28
Effective tax rate	Approximately 18% (2)	19% to 20% (2)
Capital expenditures (net of landlord reimbursements)	\$160M to \$165M	\$165M to \$170M

### Footnotes

<sup>(1)</sup> Including the one-time income tax benefit of \$3 million, or \$0.02 EPS, from the adoption of a tax calculation method change in conjunction with the Tax Cuts and Jobs Act.

<sup>(2)</sup> The lower effective tax rate is due to the Tax Cuts and Jobs Act and the tax accounting method change noted above.

### Third Quarter 2018 Conference Call

### **Important Information Regarding Outlook**

There is no guarantee that Sprouts will achieve its projected financial expectations, which are based on management estimates, currently available information and assumptions that management believes to be reasonable. These expectations are inherently subject to significant economic, competitive and other uncertainties and contingencies, many of which are beyond the control of management. See "Forward-Looking Statements" below.

### **Forward-Looking Statements**

Certain statements in this press release are forward-looking as defined in the Private Securities Litigation Reform Act of 1995. Any statements contained herein that are not statements of historical fact (including, but not limited to, statements to the effect that Sprouts Farmers Market or its management "anticipates," "plans," "estimates," "expects," or "believes," or the negative of these terms and other similar expressions) should be considered forward-looking statements, including, without limitation, statements regarding the company's guidance, outlook and opportunities. These statements involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this release. These risks and uncertainties include, without limitation, risks associated with the company's ability to successfully compete in its intensely competitive industry; the company's ability to successfully open new stores; the company's ability to manage its rapid growth; the company's ability to maintain or improve its operating margins; the company's ability to identify and react to trends in consumer preferences; product supply disruptions; general economic conditions; and other factors as set forth from time to time in the company's Securities and Exchange Commission filings, including, without limitation, the company's Annual Report on Form 10-K. The company intends these forward-looking statements to speak only as of the time of this release and does not undertake to update or revise them as more information becomes available, except as required by law.

## Non-GAAP Financial Measures

In addition to reporting financial results in accordance with accounting principles generally accepted in the United States ("GAAP"), the company presents EBITDA. This measure is not in accordance with, and is not intended as an alternative to, GAAP. The company's management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the company and as a component of incentive compensation. The company defines EBITDA as net income before interest expense, provision for income tax, and depreciation, amortization and accretion.

Non-GAAP measures are intended to provide additional information only and do not have any standard meanings prescribed by GAAP. Use of these terms may differ from similar measures reported by other companies. Because of their limitations, non-GAAP measures should not be considered as a measure of discretionary cash available to use to reinvest in the growth of the company's business, or as a measure of cash that will be available to meet the company's obligations. Each non-GAAP measure has its limitations as an analytical tool, and you should not consider them in isolation or as a substitute for analysis of the company's results as reported under GAAP.

The following table shows a reconciliation of EBITDA and net income excluding a one-time tax benefit<sup>(1)</sup> to net income for the thirteen and thirty-nine weeks ended September 30, 2018 and October 1, 2017:
